EDUCATION

VESIT Mumbai

B.Tech Information Technology – Semester 4 **CGPA: 9.58/10**

Mumbai, India

2024 – 2028

PROJECTS

JalSarathi | React, Node.js, SQLite, Tailwind

Sept 2025

- Architected full-stack SIH platform for rooftop rainwater harvesting analysis and sustainability reporting.
- Built dynamic calculators, Recharts visualizations, and automated PDF generation.

Setu: Voice-First AI Bridge | Python, GenAI

Jan 2026

- Designed conversational voice assistant integrating speech workflows with LLM-based responses.

Aahaar-Parakh (Ongoing) | AI/ML, Mobile Dev

2026 – Present

- Building AI-powered food ingredient analysis system focused on accessibility for AI for Bharat Hackathon.

Smart Meter OCR | Python, Computer Vision

Nov 2025

- Built OCR pipeline automating analog electricity meter digitization using image preprocessing techniques.

TECHNICAL SKILLS

Languages: JavaScript, Python, C++, SQL

Frontend: React, Tailwind **Backend:** Node.js, Express

AI/ML: Generative AI, RAG, Computer Vision

Tools: Git, Docker, Postman, Vercel, Render

EXPERIENCE

Jr Technical Officer – QuestIT IT Dept Council, VESIT

Present

Mumbai, MH

- Co-organized **Genesis 2026**, a QuestIT offline hackathon, managing technical planning and execution.
- Supported development-focused workshops and internal technical initiatives for student developers.

Technical Officer (SE) – ISTE VESIT

Present

Mumbai, MH

- Led technical workshops introducing students to modern web development and GenAI concepts.

HONORS

1st Prize Science Stream Topper (91.17%) – St Xavier's Jr College

2024

CERTIFICATIONS

Building a Retrieval-Augmented Generation (RAG) System – Hack2Skill

Serverless AI Image Editing Application – Hack2Skill
